

Catbrook Education Trust Catchment Area

Catbrook Educational Trust Catchment Rationale.

Following extensive research and enquires, to the best of CET knowledge, there is no existing map of the Catbrook village school catchment area. Through historical research, discussions with local residents and the community council, the above proposed catchment area map has been identified and adopted by the trustees. Further details regarding the process of establishing the catchment can be obtained on request and the map will be reviewed and adjusted if required.
